EU Green Deal

The first climate-neutral continent

by 2050

At least 55% less

net greenhouse gas emissions by 2030, compared to 1990 levels

3 billion

additional trees to be planted in the EU by 2030

“The European Green Deal is our new growth strategy”

(Ursula von der Leyen, President of the European Commission)

What will we do?

Reaching this target will require action by all sectors of our economy:

ENERGY

- ▶ Decarbonise the energy sector

The production and use of energy account for more than **75%** of the EU's greenhouse gas emissions

BUILDINGS

- ▶ Renovate buildings, to help people cut their energy bills and energy use

40% of our energy consumption is by buildings

INDUSTRY

- ▶ Support industry to innovate and to become global leaders in the green economy

European industry only uses **12%** recycled materials

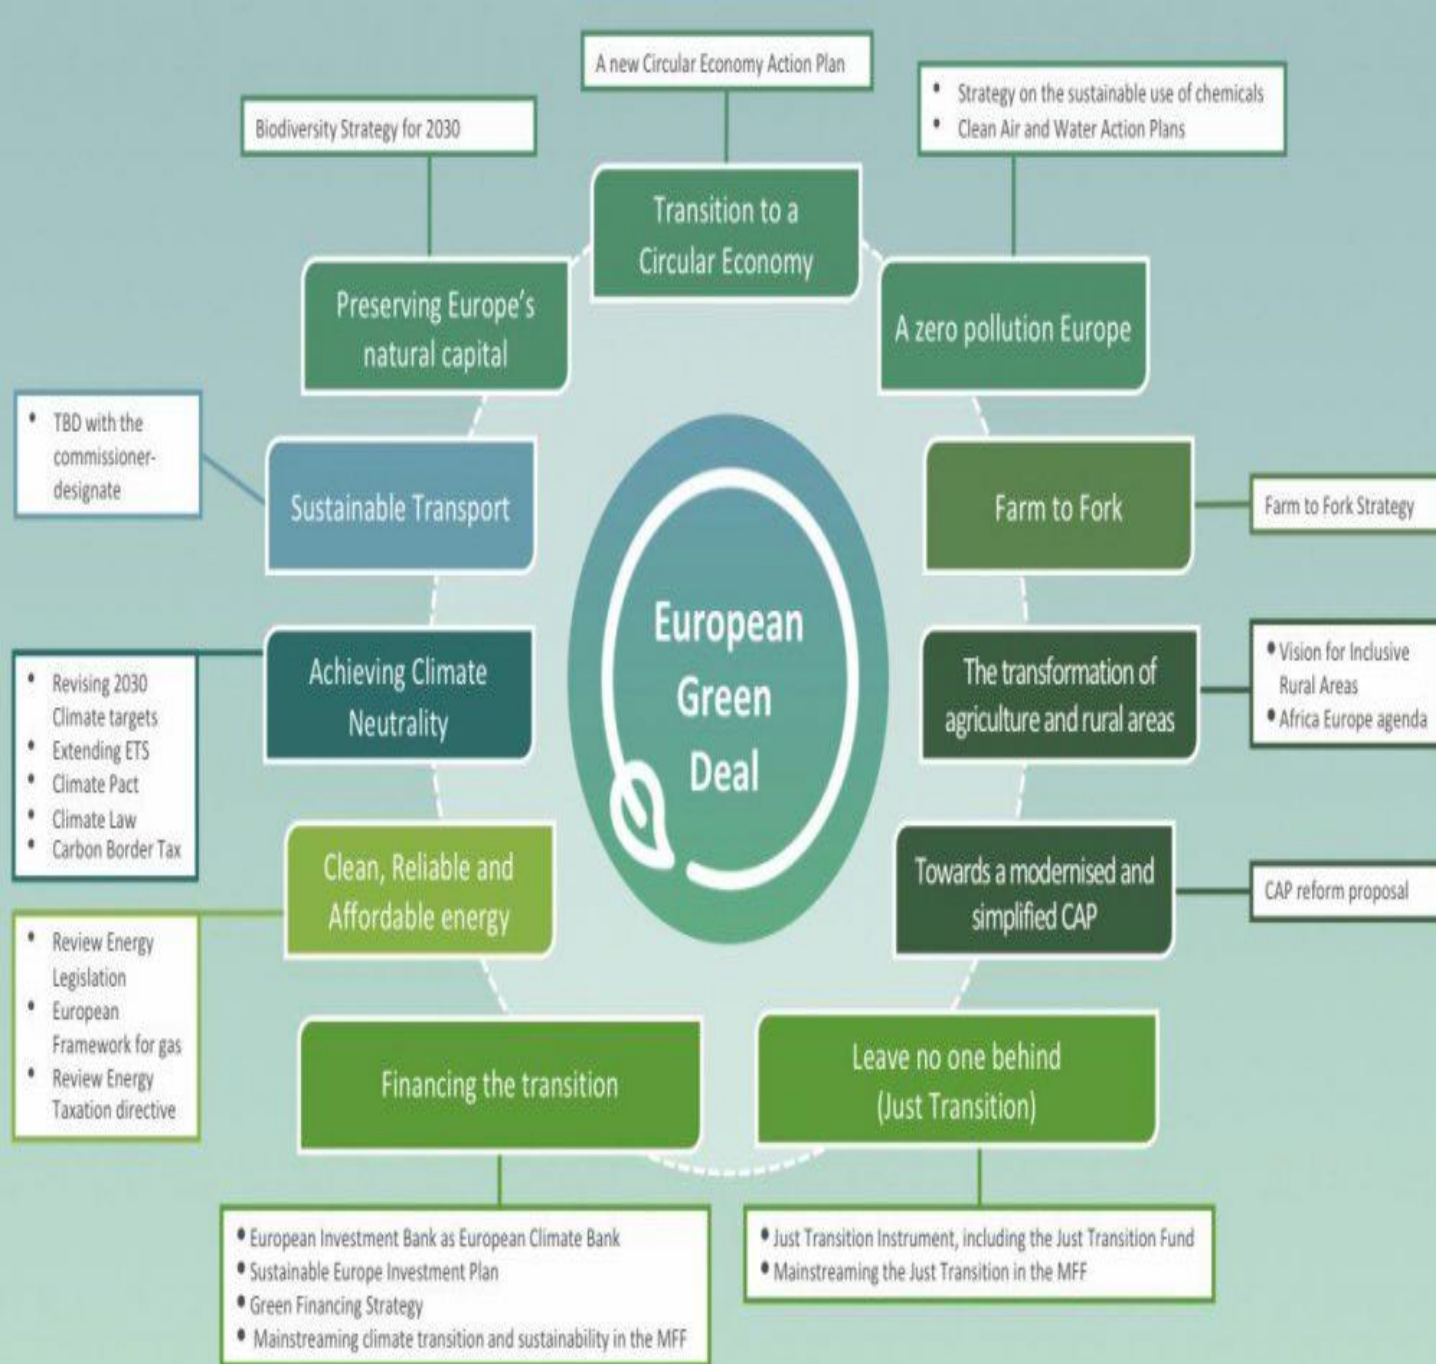

MOBILITY

- ▶ Roll out cleaner, cheaper and healthier forms of private and public transport

Transport represents **25%** of our emissions
